

GS Delivery Robot X1

Autonomous delivery Robot

Specifications

Dimension	L 520mm W 484mm H 1250mm
Unladen Weight	55 kg
Tray Dimension	L 400mm W 470mm
Load Capacity	10 kg * 4
Network Standard	4G
WIFI	2.4Ghz
Max. Travel Speed	1.2 m/s
Max. Climbing Degree	5°
Min. Passage Width	80 cm
Min. Turning Diameter	80 cm
Braking Distance	5 cm
Battery Type	Lithium Iron Phosphate
Battery Capacity	20Ah
Rated Voltage	29.4 V
Max. Output Power	230 W
Uptime	8 hours
Charging Time	4 hours
Safety System	LIDAR, Depth camera Bumper, Cliff sensor

Key Features

- Suitable for restaurants, cafes, catering services, hotels, offices and medical labs
- User friendly
- Minimal maintenance
- Point-to-point path planning
- Fast deployment without QR code for location
- Unique suspension system
- Reaches up to 3 tables in one go
- An array of sensors for maximum security
